ADVANTAGES

OF DEXNET TECHNOLOGY

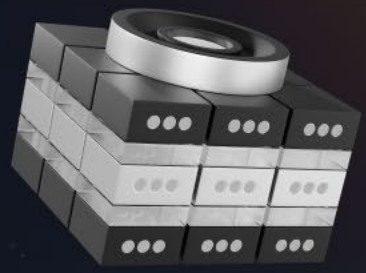
Thanks to DEXNET technology and DexNode physical devices, a totally decentralized network is being created

Security and Privacy

There is no control over the DexNet network, even for developers. Only you have access to personal information.

Availability

You can access your data from anywhere in the world where there is an internet connection.



Decentralization.

There is no physical server to maintain. Information is placed all over the world on DexNODE devices in the form of fragments of an encrypted container.

THE DECENTRALIZED, AUTONOMOUS AND SECURE WEB 4.0 CLOUD IS ALREADY HERE!

TOKEN PRICE
AND STABILITY

Factors of keeping the token price on the market

- Token distribution for active devices for 60 months
- Tokens can be used to pay for all DexNet services profitably
- The company will buy tokens from the market for 10% of the profit on all services
- There is no way to become the owner of a large number of tokens and thus there will be no whales on the market who can influence the price.

We are ready to grow more slowly, but most importantly confidently and steadily.

DEXNET TECHNOLOGIES

BRINGING THE DEXNET TOKEN TO **THE GLOBAL MARKET**

ProfiXOne CAPITAL

WE ARE TESTING OUR **OWN DEXNET BLOCKCHAIN**

DexNetChain is a blockchain based on the consensus of PoA, confirmation of authority.

The first in the world totally decentralized blockchain. The nodes are privately owned by our clients without data centers.

Throughput of 3,800 transactions per second, increasing as the number of nodes increases.

High transaction speed with the Byzantine Fault Tolerance (BFT) algorithm is a property of a computer system to reach consensus regardless of the failure of some of its nodes.

Proof-of-authority (proof of authority or PoA) is an alternative eco-consensus mechanism that does not use high computational load as the complexity of the network increases.

Gas from transactions is redistributed between node holders in the proportions of 90% – between all validator wallets, 10% – to the genesis wallet.
